Independent Auditors' Report

The Board of Trustees University of Richmond:

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of University of Richmond, which comprise the consolidated statement of financial position as of June 30, 2020, the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of University of Richmond as of June 30, 2020, and the changes in its net assets and its cash flows for the year then ended in accordance with U.S. generally accepted accounting principles.

Report on Summarized Comparative Information

We have previously audited University of Richmond's 2019 consolidated financial statements, and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated October 11, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2019 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary schedule of financial responsibility data as of and for the year ended June 30, 2020 is presented for purposes of additional analysis as required by the U.S. Department of Education and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of financial responsibility data is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole-

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 8, 2020, except as to note 13, which is as of February 26, 2021, on our consideration of University of Richmond's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of University of Richmond's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering University of Richmond's internal control over financial reporting and compliance.

Richmond, Virginia

October 8, 2020, except as to note 13 and our report on the supplementary schedule of financial responsibility data, which are as of February 26, 2021

1 Organization & Summary of Significant Accounting Policies

Organization

The University of Richmond (the University) is a private institution of higher education located in Richmond, Virginia that provides a collaborative learning and research environment to students and professionals through a combination of liberal arts, law, business, leadership studies and continuing education.

Spider Management Company, LLC (SMC), a wholly controlled affiliate of the University, provides investment research, advice. counsel management with respect to the University's endowment assets. The Richmond Management Company, LLC (RFMC), a wholly controlled affiliate of SMC, is the general partner of the Richmond Fund, LP (Richmond Fund) and is managed by SMC's Board of Managers. Richmond Fund is an investment limited partnership that provides a vehicle for unaffiliated 501(c) organizations to achieve investment returns that mirror the investment returns of the University's endowment.

Basis of Presentation

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (U.S. GAAP). Significant inter-entity balances and transactions have been eliminated in consolidation.

The assets and liabilities in the consolidated statement of financial position are presented in order of liquidity with the exception of investments, which have certain components that are considered short term and others that are considered long term.

The University classifies revenues earned and expenses incurred related to its core missions of teaching, research, scholarship and service, and investment returns made available for current use as operating revenues or expenses in the consolidated statement of activities. All other activities, including contributions restricted by donors or designated for longer term use by the Board of Trustees (the Board), are shown as a component of nonoperating activities.

Net Asset Classes

The accompanying consolidated financial statements present information regarding the University's financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

Without Donor Restrictions

Net assets that are not subject to donor-imposed restrictions.

With Donor Restrictions

Net assets that are subject to donor restrictions that expire through the passage of time or can be fulfilled or removed by actions pursuant to those restrictions.

Cash and Cash Equivalents

Cash equivalents with a maturity of three months or less at date of purchase are reported as cash and cash equivalents in the accompanying consolidated statement of financial position. Cash equivalents held by investment custodians are reported within investments in the accompanying consolidated financial statements. These investments are not considered cash equivalents for purposes of the consolidated statement of cash flows.

Investments

Investments are recorded at fair value in the consolidated statement of financial position. In determining fair value, the University uses various methods, including the market, income and cost approaches.

Investments in stocks, bonds and other fixed income securities are valued based upon quoted prices in active markets, if available. If the market is inactive, fair value is determined by underlying fund managers and reviewed by the University after considering various sources of information.

For investments made directly by the University whose values are based on quoted market prices in active markets, the market price of the investment is used to report fair value. The University's interests in alternative investment funds such as fixed income, equities, hedged strategies, private capital, and real assets are reported at the net asset value (NAV) reported by the fund managers. Unless it is probable that all or a portion of the investment will be sold for an amount other than NAV, the University has concluded, as a practical expedient, that the NAV approximates fair value.

Investments in real estate consist primarily of investment funds which invest in real estate partnerships, as well as mortgages held by the University. Real estate funds are valued using the NAV of the fund.

Investments are exposed to several risks, including interest rate, currency, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the University's consolidated financial statements.

Investment transactions are accounted for on a trade date basis. Dividend income or expense is recognized on the ex-dividend date and interest income is recognized on the accrual basis. Realized

gains and losses are determined by the specific identification method for investments in investment funds and average cost for investments in securities.

Investment return, including realized and unrealized gains and losses, is recognized when earned and reported in the consolidated statement of activities net of related investment expenses. Investment return is reported in the consolidated statement of activities as increases or decreases in net assets without donor restrictions or net assets with donor restrictions, until amounts have been appropriated and the donor-imposed or regulatory time restrictions have been satisfied.

Fair Value Measurements

The University measures certain assets and liabilities that are recognized in the accompanying consolidated financial statements at fair value. The University determines fair value based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The levels of the hierarchy are defined as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities traded in active markets.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and other market-corroborated inputs.

Level 3

Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement.

Derivative Instruments

Certain derivative instruments, such as interest rate swap agreements, are used by the University. The University recognizes all derivative instruments as either assets or liabilities in the consolidated statement of financial position at their respective fair value. Changes in fair value of derivatives are recognized as a change in net assets without donor restrictions in the consolidated statement of activities.

The fair value of interest rate swap agreements is determined using pricing models developed based on the London Interbank Offered Rate (LIBOR) and other unobservable market data. The value was determined after considering the potential impact of collateralization and netting agreements, and adjusted to reflect nonperformance risk of both the counterparty and the University.

Property, Plant and Equipment

Property, plant and equipment consisting of land, improvements, buildings, equipment and library books are stated at cost, if purchased, or estimated fair value at the date of gift, net of accumulated depreciation. Depreciation is calculated using the straight-line method based on estimated useful lives of 30 to 50 years for buildings, 10 to 20 years for improvements, 5 to 10 years for equipment, and 10 years for library books.

Collections

The University's collections of historically significant artifacts, scientific specimens and art objects are held for education, research, scientific inquiry, and public exhibition. Their value is not reflected in the University's consolidated financial statements, as permitted by U.S. GAAP.

Revenue Recognition

Tuition and Fees

Student tuition and fees are recorded as revenue during the academic term that the related academic services are rendered. Student tuition and fees received in advance of services rendered are considered as deferred revenue and reported within accounts payable and other liabilities in the consolidated statement of financial position. Payments for tuition are typically due the first Monday in August for the Fall semester, first Monday in December for the Spring term, and the first date of each respective summer term. Undergraduate tuition and fees are approximately 88% of total gross tuition and fees.

The University offers several summer terms where revenue is recognized ratably over each summer term. Summer tuition revenue recognized was \$3.1 million for the year ended June 30, 2020. Summer tuition revenue deferred was \$0.8 million as of June 30, 2020.

Need-based institutional scholarships are awarded to students to defray the costs of the academic programs, which reduce the amount of revenue recognized. Scholarships awarded to students for the years ended June 30, 2020 and 2019 were \$86.3 million and \$83.7 million, respectively.

Contributions

Contributions of cash and other assets, including unconditional pledges, are recorded as revenue based upon any donor-imposed restrictions, on the date of the donor's commitment or gift. Contributions whose restrictions are met in the same fiscal year as their receipt are reported as contribution revenue without donor restrictions. Contributions of other assets are recorded at estimated fair value at the date of gift. Unconditional pledges are recorded at estimated present value at the date of the commitment, which approximates fair value, net of an allowance for uncollectible amounts. Conditional pledges are not recognized as revenue until such time as the conditions are

substantially met. As of June 30, 2020, the fair value of the conditional pledges received by the University is indeterminable.

Auxiliary Enterprises

The University's auxiliary enterprises are managed as self-supporting activities. Auxiliaries consist primarily of food services, housing, and bookstore operations. Auxiliary revenues are recognized over the academic term or at the point of sale for bookstore operations.

Tax Status

The University is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the Code). As such, the University is exempt from Federal income taxes to the extent provided under Section 501 of the Code. Accordingly, no provision for income taxes is made in the consolidated financial statements.

The Tax Cuts and Jobs Act (TCJA) was enacted on December 22, 2017. Among other things, the TCJA imposes an excise tax on net investment income for certain organizations and establishes new rules for calculating unrelated business taxable income. The University is subject to the excise tax; however, there is uncertainty in the available proposed regulatory guidance. The University has reflected an estimate in its consolidated financial statements for both unrelated trade or business income tax and the excise tax using the current proposed regulatory guidance. The University continues to evaluate the impact of the TCJA on current and future tax positions.

The University accounts for uncertain tax positions, when applicable. Apart from those impacted by the TCJA, the University has not taken any uncertain tax positions. No interest expense or penalties have been recognized as of and for the year ended June 30, 2020. The tax years that remain subject to examination by the major tax jurisdictions under the statute are from the year 2016 and forward.

Estimates

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

New Accounting Pronouncements

ASU 2016-02, *Leases (Topic 842)*, as amended, was issued by the Financial Accounting Standards Board (FASB) in February 2016. ASU 2016-02 increases transparency and comparability among

organizations by requiring recognition of rights and obligations arising from lease contracts as assets and liabilities on the statement of financial position and disclosing key information about leasing arrangements. ASU 2016-02 is effective for the University beginning in fiscal year 2021. The University is still assessing the impact of this update on its consolidated financial statements.

Comparative Financial Information and Reclassifications

The consolidated financial statements include certain prior year information presented for comparative purposes, which does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the University's consolidated financial statements as of and for the year ended June 30, 2019, from which this information was derived.

Current Environment

The COVID-19 pandemic has negatively affected national, state, and local economies as well as global financial markets and the higher education landscape in general. Commencing March 23, 2020, course instruction at the University was conducted virtually and most students vacated the campus. The University issued refunds of \$5.4 million in fiscal year 2020 for housing and dining services not Students continued to meet their academic requirements for the remainder of the 2019 – 20 academic year. While the total financial impact on the University cannot be quantified at this time, the pandemic may have a material adverse effect on the current and future financial profile and operating performance of the University. University continues to monitor the course of the pandemic and is prepared to take additional measures to protect the health of the University community and promote the continuity of its academic mission.

Subsequent Events

The University has evaluated subsequent events for potential recognition or disclosure in the June 30, 2020 consolidated financial statements through October 8, 2020, the date the consolidated financial statements were issued.

On July 14, 2020, the University authorized the issuance and sale of \$55.0 million of taxable notes through a private placement with New York Life Insurance and Annuity Corporation. The notes bear interest at a fixed rate of 2.95% and fully mature on July 14, 2050. A portion of the proceeds will be used to repay the Series 2011A and 2011B tax-exempt revenue bonds. The remainder will be used for various capital projects.

2 Endowment

At June 30, 2020, the University's endowment consisted of approximately 1,450 individual funds, established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the University's Board to function as endowments. Net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The University has interpreted the Commonwealth of Virginia's enacted version of the Uniform Prudent Management of Institutional Funds Act (the Act) as allowing the University to appropriate for expenditure or accumulate so much of an endowment fund as the University determines is prudent for the uses, purposes, and durations for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument.

In accordance with the Act, the University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1. The duration and preservation of the fund;
- 2. The purposes of the University and the donor-restricted endowment fund;
- 3. General economic conditions:
- 4. The possible effect of inflation and deflation;
- 5. The expected total return from income and the appreciation of investments;
- 6. Other resources of the University;
- 7. The University's investment policies.

Spending Policy

The University's spending policy was developed with the objectives of meeting the current operating needs of the University, providing year-to-year budget stability and protecting the future purchasing power of the endowment assets against the impact of inflation.

Under normal circumstances, endowment spending will increase at a level of 3% per year above the previous year's spending rate. If, however, this amount exceeds 6% or is less than 4% of a three-year moving average of the market value of the

endowment assets calculated on a one-year lagged basis, spending will be reduced to 6% or increased to 4% of the three-year moving average, respectively.

Return Objectives and Risk Parameters

The University has adopted investment and spending policies for endowment assets that attempt to maintain the purchasing power of the endowment assets in perpetuity and achieve investment returns sufficient to sustain the level of spending necessary to support ongoing University operations. The primary investment objective is to earn an average annual real total return of at least 5% per year over the long term. Actual returns in any given year may vary from this amount. A secondary objective is to outperform, over the long term, a blended policy benchmark based on the current asset allocation policy. A third objective is to rank in the top quartile of the National Association of College and University Business Officers' reported endowment returns.

Strategies Employed for Achieving Objectives

To satisfy the return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation and current yield. The University's asset allocation policy provides a diversified strategic mix of asset classes which emphasizes investments in equity and fixed income securities, hedge funds, private equity, real assets, real estate funds, and cash and produces the highest expected investment return within a prudent risk framework.

Underwater Endowment Funds

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the level that the donor or the Act requires the University to retain as a fund of perpetual duration. The University has a policy that permits spending from underwater endowment funds depending on the degree to which the fund is underwater, unless otherwise precluded by donor intent or relevant laws and regulations. As of June 30, 2020, donor-restricted endowment funds with deficiencies of this nature had original gift values totaling \$16.4 million and fair values totaling \$16.0 million, resulting in an underwater amount of \$0.4 million.

	\$2	2,386,318	572,692		

Redemptions

Of the investments reported at NAV, approximately \$902.3 million were redeemable at June 30, 2020. It is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to inherent uncertainty of fair value in secondary markets, such estimates of fair value may differ from values that would have been applied had a readily available market existed, and those differences could be material. It is possible that if the University were to sell these investments in the secondary market, a buyer may require a discount to the reported net asset value, and that discount could be significant.

Beneficial Interest in Perpetual Trusts

The University is the beneficiary of certain perpetual trusts held and administered by outside trustees. These trust interests are reported at fair value, based on the value of the underlying assets, which approximates the present value of future income from these trusts. As such, these assets fall within level 3 of the hierarchy of fair value inputs, with changes resulting from net investment return of \$(0.2) million. Distributions from these trusts are recorded as investment return designated for current operations.

Derivatives

The University has four fixed interest rate swap agreements to convert variable interest rates on notes payable to fixed rates without exchanging the underlying principal amounts. These liabilities fall within level 3 of the hierarchy of fair value inputs. The University anticipates holding the interest rate swap agreements until the associated debt has been retired. The interest rate received under each agreement is calculated at 68% of the one-month LIBOR, which was 0.18% at June 30, 2020.

Certain University derivative instruments contain provisions requiring that long-term, unsecured debt be maintained at specified credit ratings from Moody's Investor Service and Standard and Poor's Rating Service. If the ratings of the University's debt were to fall below certain benchmarks, the counterparty could request collateral on derivatives in net liability positions. During the year ended June 30, 2020, the University's long-term debt ratings exceeded these benchmarks. No collateral was required to be posted related to the University's interest rate swap agreements during the year ended June 30, 2020.

Derivatives as of June 30 (in th	ousands)				
		Notional	Fair Value	Liability	Change in

Accumulated depreciation	(471,258)	(442,180)
	\$ 366,533	350,382

6 Notes Payable

The University issued tax-exempt revenue bonds through the Virginia College Building Authority and taxable notes through a private placement with New York Life Insurance and Annuity Corporation. Proceeds were used to refinance existing debt as

well as to construct, equip, or improve several capital projects on campus.

Principal balances, including unamortized premium amounts, were as follows as of June 30:

Notes Payable as of June 30 (in thousands)		
	2020	2019
Tax-exempt fixed-rate		
Series 2011A, 4.50% - 5.00%, final maturity in 2023	\$ 8,356	10,948
Series 2011B, 5.00%, final maturity in 2021	20,906	21,149
Series 2012, 3.00% - 4.00%, final maturity in 2042	61,047	61,130
Tax-exempt variable-rate ¹		
Series 2004, 1.25%, final maturity in 2035	46,000	46,000
Series 2006, 1.16%, final maturity in 2037	55,900	55,900
Taxable fixed-rate		
Series 2015, 3.60%, final maturity in 2046	 40,000	40,000
	\$ 232,209	235,127

¹Variable rates for Series 2004 and Series 2006 notes reset weekly and daily, respectively. Interest rates shown reflect averages for the year ended June 30, 2020.

Repayments of Notes Payable for Years Ended June 30 (in thousands)	
Years ending June 30:	
2021	\$ 23,360
2022	2,745
2023	2,880
2024	4,650
2025	2,255
Thereafter	 194,995
	230,885
Unamortized premium	 1,324
	\$ 232,209

The University has standby credit facilities to enable the University to repurchase tendered variable-rate debt in the event of a failed remarketing. Two diversified facilities totaling \$101.9 million are available to the University solely for this purpose and may not be used for the operating or capital needs of the University. There were no draws against these standby credit facilities for the year ended June 30, 2020.

The University has a one-year revolving credit facility in the amount of \$20.0 million to support timing

differences within the operating cash portfolio. Interest on drawn amounts is calculated at the greater of (a) the LIBOR daily floating rate and (b) 1.00%, plus 1.55%. Any unused outstanding credit balance incurs a fee of 0.375%. There was no outstanding balance against this facility as of June 30, 2020.

Interest expense on notes payable, including amortization of premiums on notes payable and the cost of standby credit facilities of \$0.5 million, was \$9.1 million for the year ended June 30, 2020.

7 Retirement Plans and Postretirement Benefits

The University has contributory defined contribution retirement annuity plans for academic and nonacademic employees. Contributions are based on a percentage of the employee's salary. The University contributed \$11.7 million into these plans for the year ended June 30, 2020.

The University sponsors defined benefit health care plans that provide postretirement medical benefits to full time employees who meet minimum age and service requirements. These plans, which are closed to new participants, are not funded.

The University utilizes a measurement date of June 30. Net actuarial loss and prior service cost not yet recognized as a component of net periodic postretirement costs were \$9.3 million at June 30,

2020. At June 30, 2020 and 2019, the weighted average annual assumed rate of increase in the per capita cost of covered benefits was 5.80% and 6.00%, respectively, and is assumed to decrease gradually to 4.50% by the year 2038 and remain at that level thereafter. At June 30, 2020 and 2019, the weighted average discount rate used in determining the accumulated postretirement benefit obligation was 2.65% and 3.50%, respectively.

For the nontaxable federal subsidy related to the postretirement benefit plan drug benefit, the University has determined actuarial equivalence of its plans. Therefore, the accumulated benefit obligation and the net periodic benefit cost reflect a reduction arising from this subsidy.

Changes in Postretirement Benefits Obligation (in thousands)						
		2020	2019			
Accrued postretirement benefits obligation at beginning of year	\$	18,740	17,196

2026 – 2030	6,176

8 Composition of Net Assets

Net assets without donor restrictions include boarddesignated endowments that are used to support general operations. Within the donor-restricted endowments category, other programming consists of endowments restricted for specific programmatic purposes, including instruction; library support and materials; and athletics.

Composition of Net Assets as of June 30 (in thousands)		
	2020	2019
Without donor restrictions		
Board-designated endowments	\$ 1,197,948	1,253,632

Purpose restricted and other	79,502	84,648
Total with donor restrictions	1,287,156	1,344,225
	\$ 2,596,463	2,715,249

9 Expenses

The composition of expenses for the year ended June 30, 2020 is as follows:

Operating Expenses for the Year Ended June 30, 2020 (in thousands)							
		mpensation nd benefits	Materials and supplies	Services and other	Interest and depreciation	Total	
Instruction	\$	75,819	2,498	5,323	5,292	88,932	
Research		1,970	246	1,189	701	4,106	
Public service		2,139	110	716	767	3,732	
Academic support and libraries		25,918	6,456	8,761	9,798	50,933	
Student services		30,813	3,299	12,504	7,108	53,724	
Institutional support		39,880	2,728	9,478	2,070	54,156	
Auxiliary enterprises		15,298	9,993	7,698	12,935	45,924	
Total operating expenses	\$	191,837	25,330	45,669	38,671	301,507	
2019 operating expenses	\$	185,242	34,504	47,877	37,529	305,152	

Program services are comprised of instruction, research, public service, academic support and libraries, student services, and auxiliary enterprises. Athletics expenses are included in student services. Supporting services includes institutional support. Fundraising expenses of \$5.7 million are included in

institutional support. The University allocates maintenance of plant, interest, and depreciation to the program and support expenses reported in the accompanying consolidated statement of activities on a square footage basis.

10 Availability of Financial Assets for General Expenditures

Resources available to the University to fund general expenditures, such as operating expenses, interest and principal payments on debt, and internally funded capital construction, have seasonal variations related to the timing of tuition billings, receipt of gifts and pledge payments, and transfers from the endowment. The University actively manages its resources, utilizing a combination of

short, medium, and long-term operating investment strategies, to align its cash inflows with anticipated outflows, in accordance with policies approved by its Board. As further described in Note 6, the University may draw upon a revolving credit facility to manage cash flows. At June 30, 2020, existing financial assets and liquidity resources available within one year were as follows:

Availability and Liquidity Resources for General Expenditures at June 30, 2020 (in thousands)						
Financial assets available for general expenditures within one year						
Cash and cash equivalents	\$	95,863				
Operating investments		4,665				
Liquidity resources						
Revolving credit facility		20,000				

Additionally, the University has \$1.2 billion in board-designated endowments, of which \$902.3 million can be liquidated within one year; however, no liquidation is anticipated.

The Board has approved fiscal year 2021 spending from the endowment, which is estimated to be \$128.1 million.

11 Related Party Transactions

Management fees earned by RFMC from the Richmond Fund during the year ended June 30, 2020 were \$13.3 million, of which \$3.2 million was due to RFMC. RFMC earned a performance allocation of \$4.0 million during the year ended June 30, 2020.

On January 28, 2008, the University entered into a blended rate of return agreement with the Richmond Fund. The purpose of the agreement is to equalize the quarterly rate of return of the University's pooled endowment managed by SMC and the Richmond Fund's rate of return prior to fees

and expenses. The agreement requires settlement of the agreement at least once a calendar year. The University anticipates holding the agreement until termination of the Richmond Fund. As of June 30, 2020, and 2019 the University has a liability to the Richmond Fund in the amount of \$24.3 million and \$8.0 million, respectively, which is included in accounts payable and other liabilities on the accompanying consolidated statement of financial position. The settlement value for the year ended June 30, 2020 totaled \$37.2 million which has been recorded against investment return.

12 Contingencies and Commitments

Contingencies

From time to time, the University is involved in various legal proceedings in the normal course of operations. In management's opinion, the University is not currently involved in any legal proceedings which individually or in the aggregate could have a material effect on the financial condition, change in net assets, or liquidity of the University.

The University receives revenues under U.S. government funded grants and contracts. The ultimate determination of amounts received under these programs generally is based upon allowable

costs, which are subject to audit, and are reported to the U.S. government. Recovery of indirect costs is based on predetermined rates negotiated with the U.S. government. The University is of the opinion that adjustments, if any, arising from such audits will not have a material effect on the consolidated financial statements.

Commitments

The University is in the process of constructing, renovating and equipping certain facilities. The expected cost to complete construction in progress at June 30, 2020 was approximately \$47.7 million.

13 Financial Responsibility Standards

The University participates in federal Title IV student financial assistance programs, which require it to meet standards of financial responsibility based on criteria determined by the U.S. Department of Education (ED), as set forth in 34 CFR 668.171 (FRS). The criteria for private institutions include the annual calculation by ED of a financial responsibility composite score, as further outlined in 34 CFR 668.172, using audited financial statements submitted through ED's eZ-Audit system. The composite score has been and will continue to be

based on three ratios: Primary Reserve, Equity, and Net Income. These ratios utilize financial data of the University which are modified as required by the FRS or are not otherwise presented in the financial statements or other notes to the consolidated financial statements. These amounts are presented below, as of and for the year ended June 30, 2020. Notes payable on the Consolidated Statement of Financial Position is considered preimplementation debt outstanding as of July 1, 2019.

See independent auditors' report and notes to the Schedule of Expenditures of Federal Awards.

1 Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) presents the activity of all federal award programs of the University of Richmond and its affiliates (the University) for the year ended June 30, 2020. All federal awards received directly and indirectly from federal agencies are included in this Schedule. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in

the Schedule may differ from amounts presented in, or used in the preparation of, the consolidated financial statements. Although the University is required to match certain amounts, as defined in the grant agreements, no such matching has been included in this Schedule. Because the Schedule presents only a selected portion of the operations of the University, it is not intended to, and does not, present the consolidated financial position, activities, and cash flows of the University. The University has not elected to use the 10% de minimis indirect cost rate discussed in Uniform Guidance Section 200.414.

2 Basis of Accounting

The accompanying Schedule is presented using the accrual basis of accounting.

Expenditures for federal student financial assistance programs are recognized as incurred and include grants to students under the Federal Pell Grant and Federal Supplemental Educational Opportunity Grant Programs, student earnings under the Federal Work Study Program, and administrative cost allowances, where applicable.

Expenditures for loans related to the Federal Direct Loan are reported in the Schedule when disbursed.

New loans made during the fiscal year and loans from previous fiscal years for which the University has continuing compliance requirements to adhere to related to the Federal Perkins Loan Program are reported in the Schedule.

Expenditures for other federal awards are recognized as incurred using the cost accounting principles contained in *Uniform Guidance*. Under these cost principles, certain types of expenses are not allowable or are limited as to reimbursement.

3 Federal Perkins Loan Program

The Federal Perkins Loan Program (CFDA Number 84.038) (Perkins) is administered directly by the University and the current year loaned amount under Perkins was \$0. The total amount of Perkins loans outstanding at June 30, 2020 under Perkins was \$2,248.202 and is included in other assets in the

University's consolidated statement of financial position as of June 30, 2020. The amount of Perkins loans on the Schedule includes the beginning outstanding loan balance, the current year loaned amount, and administrative charges, if applicable.

4 Federal Direct Loan Program

The University participates in the Federal Direct Loan Program (CFDA Number 84.268) (the Program), which includes the Federal Direct Subsidized Loan Program, the Federal Direct Unsubsidized Loan Program, and the Federal Direct PLUS Program. The Program requires the University to request cash from the U.S. Department of Education and disburse such funds.

The University is responsible only for the performance of certain administrative functions with respect to the Program, and accordingly, these loans are not included in the University's consolidated financial statements. It is not practicable to determine the balance of loans outstanding to students and former students of the University under the Program at June 30, 2020.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Board of Trustees University of Richmond:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of University of Richmond (the University), which comprise the consolidated statement of financial position as of June 30, 2020, and the related consolidated statements of activities, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 8, 2020, except as to note 13, which is as of February 26, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether University of Richmond's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of University of Richmond's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Richmond, Virginia October 8, 2020, except as to note 13 to the consolidated financial statements, which is as of February 26, 2021

KPMG LLP Suite 2000 1021 East Cary Street Richmond, VA 23219-4023

Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

The Board of Trustees University of Richmond:

Report on Compliance for Each Major Federal Program

We have audited University of Richmond's (the University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2020. The University's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

Opinion on Each Major Federal Program

In our opinion, University of Richmond complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002. Our opinion on each major federal program is not modified with respect to these matters.

The University's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The University's response and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response or the corrective action plan.

Report on Internal Control over Compliance

Management of University of Richmond is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2020-001 and 2020-002, that we consider to be significant deficiencies.

The University's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The University is also responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. The University's response and corrective action plan were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response or the corrective action plan.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the consolidated financial statements of University of Richmond as of and for the year ended June 30, 2020, and have issued our report thereon dated October 8, 2020, except as to note 13, which is as of February 26, 2021, which contained an unmodified opinion on those consolidated financial statements. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole.

The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Richmond, Virginia February 26, 2021

Schedule of Findings and Questioned Costs Year ended June 30, 2020

(1) Summary of Auditors' Results

- (a) Type of report issued on whether the consolidated financial statements were prepared in accordance with generally accepted accounting principles: **Unmodified**
- (b) Internal control deficiencies over financial reporting disclosed by the audit of the consolidated financial statements:
 - Material weakness: No
 - Significant deficiencies: None reported
- (c) Noncompliance material to the consolidated financial statements: No
- (d) Internal control deficiencies over the major program disclosed by the audit:
 - Material weakness: No
 - Significant deficiencies: Yes 2020-001 and 2020-002
- (e) Type of report issued on compliance for each major program: Unmodified
- (f) Audit findings that are required to be reported in accordance with 2 CFR 200.516(a): Yes
- (g) Major programs:

Student Financial Assistance Programs Cluster (Various CFDA)

Higher Education Emergency Relief Act (HEERF) Student Aid Portion (CFDA #84.425E)

- (h) Dollar threshold used to distinguish between Type A and Type B programs: \$750,000
- (i) Auditee qualified as a low risk auditee: Yes

(2) Findings Relating to the Financial Statements Reported in Accordance with Government Auditing Standards

None reported.

(3) Findings and Questioned Costs Relating to Federal Awards

Finding 2020-001: Special Test and Provision - Disbursements to or on Behalf of Students Federal Award Year

July 1, 2019 through June 30, 2020

Federal Program

Student Financial Assistance; CFDA Number 84.268 - Federal Direct Student Loan Program

Federal Agency

U.S. Department of Education

(Continued)

Schedule of Findings and Questioned Costs Year ended June 30, 2020

Criteria

Per 34 CFR section 668.165(a)(3), if an institution credits a student's account with a Direct Loan, the institution must notify the student or parent in writing of the date and amount of the disbursement, the student's right or parent's right to cancel all or a portion of that loan or loan disbursement, and have the loan proceeds returned to the holder of that loan, and the procedures and time by which the student or parent must notify the institution that he or she wishes to cancel the loan or loan disbursement. Further, for institutions that implement affirmative confirmation, the loan disbursement notification must be made no earlier than 30 days before, and no later than 30 days after crediting the student's account with the loan.

Per 2 CFR 200.303, the nonfederal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the nonfederal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition Found, Including Perspective

We selected 40 students for testing of loan disbursements notification and noted that one student did not receive a notification of their Fall 2019 loan disbursements. The Spring 2020 disbursements notifications were sent within the requirement for the 40 students selected for testing.

Possible Cause and effect

Loan disbursement notifications are initiated by the Office of Financial Aid weekly. Due to the wrong date range used in the notification process, students with loan disbursements on certain days were not sent loan disbursement notifications. The Office of Financial Aid also did not monitor the notification process to ensure compliance.

Questioned Costs

None identified.

Whether the sampling was a statistically valid sample

The sample was not intended to be, and was not, a statistically valid sample.

Identification of whether the audit finding is a repeat of a finding in the immediately prior audit Yes – Finding 2019-001.

Recommendation

We recommend the University enhance its controls over the loan disbursements notification process to ensure that the proper parameters are used when initiating the notification process on a weekly basis. We also recommend an after-the-fact review of notifications to ensure compliance.

Views of Responsible Officials

Management concurs with KPMG's recommendation to enhance its controls over the loan disbursements notification process as well as perform a review of notification to ensure compliance. This recommendation was identified in the prior year audit with corrective action implemented as of January 15, 2020. Since these procedures have been updated, all impacted students after this date have been notified of their loan

Schedule of Findings and Questioned Costs Year ended June 30, 2020

disbursement timely. Procedures for reviewing notifications have been implemented and are being closely monitored.

Finding 2020-002: Enrollment Reporting

Federal Award Year

July 1, 2019 through June 30, 2020

Federal Program

Student Financial Assistance; CFDA Number 84.268 - Federal Direct Student Loan Program

Federal Agency

U.S. Department of Education

Criteria

Per 34 CFR Section 685.309 and 34 CFR Section 690.83, a school shall complete and return the student status confirmation report to the Secretary within 60 days of receipt. Institutions are responsible for timely reporting, whether they report directly or via a third-party servicer. Per 34 CFR Section 685.309 and 34 CFR Section 690.83, institutions must review, update, and verify student enrollment statuses, program information, and effective dates that appear on the Enrollment Reporting Roster file or on the Enrollment Maintenance page of the NSLDS Professional Access (NSLDSFAP) website for both Campus Level and Program Level enrollment information.

Per 2 CFR 200.303, the nonfederal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the nonfederal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition Found, Including Perspective

In the program level enrollment data, there were 2 out of 40 students for which the program enrollment effective date did not agree to the University's records.

Possible Cause and Effect

Management's control over the review for accuracy of the information submitted for program level enrollment reporting was not operating consistently during the fiscal year.

Questioned Costs

None identified.

Whether the sampling was a statistically valid sample

The sample was not intended to be, and was not, a statistically valid sample.

Identification of whether the audit finding is a repeat of a finding in the immediately prior audit No.

(Continued)

Schedule of Findings and Questioned Costs Year ended June 30, 2020

Recommendation

We recommend the University enhance the precision of the control around the review of accuracy of the program level enrollment information.

View of Responsible Officials

Management concurs with KPMG's recommendation to enhance its controls over the accuracy of the program level enrollment information. As of January 22, 2021, procedures have been enhanced to review individual student enrollment information for accuracy prior to submission within the required timeframe.
